

About Happiness

“Happiness Cafe” was founded in 2012 by post-graduate Cal Poly students looking to create a modern and unique business in the San Luis Obispo area.

They both had loved studying at coffee shops within their college years and knew this was an industry they wanted to be apart of.

After the grand opening in 2014, “Happiness Cafe” was a hit! The company has expanded to four locations in populated California cities and is a well-known attraction across the state.

The brand is now nationally known and still continuing to expand.
